

**Resources/Statements and Publications from IRENA Coalition for Action Members on COVID-19
 (Current as of 11 October 2020)**

Member	Resources/Statements	Publications
ABB	ABB is supporting global efforts to limit COVID-19	
Abengoa Solar	Abengoa adapts its activity to the situation created by COVID-19	
Acciona	ACCIONA's response to the coronavirus The post-Covid recovery is an opportunity to accelerate a just transition towards a low-carbon world Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	
Alliance for Rural Electrification (ARE)	Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis	
American Council on Renewable Energy (ACORE)	ACORE CEO Greg Wetstone Testifies Before Congress, Highlights Sobering Toll of COVID-19 on Renewable Energy Jobs and Calls for Immediate Action Projected to Add 175,000 Jobs Before COVID-19 Pandemic, Clean Energy Sector Enters Final Months of 2020 Down 478,000 Jobs	Expectations for Renewable Energy Finance in 2020-2023

Centre for Science and Environment (CSE)		Power and the Pandemic: How the COVID-19 outbreak unmasked Delhi's electricity guzzling and thermal discomfort
Climate Action Network (CAN)	CAN Position: Fundamentals for Recovery & Economic Stimulus Packages in response to Covid-19, May 2020	
Dulas	Dulas supports 'Build Back Better', a letter from the MD, Ruth Chapman	
ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE)	Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis Women leaders call for action in response to Covid-19: Opening opportunities for gender equality in the transition to sustainable energy	
EKOenergy	Ten things we can learn from the corona crisis #EUGreenRecovery to restart Europe	
ENEL Green Power (EGP)	Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	
ENERGIA	Women leaders call for action in response to Covid-19: Opening opportunities for gender equality in the transition to sustainable energy Energy access and clean cooking solutions must be part of Covid-19 economic recovery plans	Gender and energy at center stage in COVID-19 battle: Powering a more gender-equal recovery

Energy Watch Group	Newsletter March 2020 - How the Coronavirus Could Impact Climate Change	
European Geothermal Energy Council (EGEC)	#EUGreenRecovery to restart Europe An inclusive Green Recovery Plan covering all renewable energy solutions	
European Renewable Energies Federation (EREF)	#EUGreenRecovery to restart Europe Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis Request to Adapt European Energy Planning Scenarios' unites stakeholders on need for high-RES energy scenarios	
Falck Renewables	Emergenza COVID-19 Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	
First Solar	COVID-19 Updates - Message from CEO	
Global Wind Energy Council (GWEC)	Wind Industry and COVID-19 Response Hub Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future Five key success factors for a Green Economic Recovery...and Five Key Tasks for the Wind Industry	
Global Women's Network for the Energy Transition (GWNET)	Women leaders call for action in response to Covid-19: Opening opportunities for gender equality in the transition to sustainable energy	

Gold Standard	Supporting stakeholders through the coronavirus crisis	
Greenpeace International	Covid-19: compassion, cooperation, courage, choice	
Hivos	Covid-19: An unprecedented moment in an unprecedented time Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis Energy access and clean cooking solutions must be part of Covid-19 economic recovery plans	Gender and energy at center stage in COVID-19 battle: Powering a more gender-equal recovery
Iberdrola SA	IBERDROLA'S GLOBAL RESPONSE TO COVID-19 Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	
International Council for Local Environmental Initiatives (ICLEI)	COVID-19 Resources	
International Geothermal Association (IGA)	Joint Statement on Renewables Working Together Building Back Better through a Green Recovery	
International Hydropower Association (IHA)	IHA and COVID-19 Joint Statement by Hydropower and Generator Associations on Covid-19 Joint Statement on Renewables Working Together Building Back Better through a Green Recovery	IHA position paper - Strengthening sustainable hydropower to support the Covid-19 recovery

International Network for Sustainable Energy (INFORSE)	Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis	
International Renewable Energy Agency (IRENA)	Staying on Course: Renewable Energy in the Time of COVID-19 Call to Action in Response to COVID-19: Renewable Energy is a Key Part of the Solution Women leaders call for action in response to Covid-19: Opening opportunities for gender equality in the transition to sustainable energy	Global Renewables Outlook: Energy transformation 2050 Post-COVID recovery: An agenda for resilience, development and equality
International Solar Energy Society (ISES)	Joint Statement on Renewables Working Together Building Back Better through a Green Recovery	
Lekela Power	Helping our communities during Covid-19	
Lusophone Renewable Energy Association (ALER)	Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis	
Mainstream Renewable Power	Wind Power a cornerstone of the Global Economic Recovery: “Re-building Better” for the future	
National Solar Energy Federation of India	Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis	
Nature Conservancy	A Message on the COVID-19 Pandemic	
Netherlands Wind Energy Association	Dossier Corona	
New Energy Nexus	We Will Get Through This Trying Time Together	

Novozymes	How Novozymes responds to COVID-19/Coronavirus Statement from Novozymes' CEO Ester Baiget on our commitment to employees, customers and communities during COVID-19 pandemic	
Ocean Energy Europe	#EUGreenRecovery to restart Europe Request to Adapt European Energy Planning Scenarios' unites stakeholders on need for high-RES energy scenarios	
Ørsted	Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	
Power for All	Repurposing the COVID-19 Response for SDG 7 Powering Health across Africa through COVID-19 and a Changing Climate Who will rescue off-grid renewable energy from coronavirus?	
Practical Action	Coronavirus Update POWER IN A PANDEMIC: WHY ENERGY ACCESS MATTERS MORE THAN EVER Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis	Gender and energy at center stage in COVID-19 battle: Powering a more gender-equal recovery

RE100/The Climate Group/CDP	The Climate Group - Coronavirus update LONG-TERM CLIMATE STRATEGY NOT IMPACTED BY COVID-19, SAYS GLOBAL BUSINESS - BUT GOVERNMENTS HAVE A BIGGER ROLE TO PLAY	
Regional Center for Renewable Energy and Energy Efficiency (RCREEE)	COVID-19 and Energy Transition: Green efforts for post crisis recovery	
Renewable Energy and Energy Efficiency Partnership (REEEP)	REEEP's Covid-19 Response Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis	
Renewable Energy Institute	Letter: Let's not waste this chance to transition to an environmentally sustainable future The Coronavirus Crisis and the Climate Crisis - A Test for Japan's Strategic Response Capabilities Re-energising Plans for Power and Climate Change Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	A Series of Disasters Shows How Renewable Energy Helps Us, Now Is the Time for a Japanese 'Green New Deal'
Renewable Energy Policy Network for the 21st Century (REN21)	COVID-19 Renewables Hub REN21 & COVID-19: A message from the Director Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis Request to Adapt European Energy Planning Scenarios' unites stakeholders on need for high-RES energy scenarios	Renewables 2020 Global Status Report

Renewables Grid Initiative (RGI)	RGI calls for a sustainable stimulus plan around the Green Deal in the design of the European Recovery and Reconstruction Package Request to Adapt European Energy Planning Scenarios' unites stakeholders on need for high-RES energy scenarios	
RenewableUK	Covid-19 Response	
RES4Africa Foundation	Covid can't, and won't, stop us The way forward in post-Covid times: renewables Europe's climate commitment can support Africa's Covid response Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	The impact of Covid-19 on Africa's energy sector
Rocky Mountain Institute (RMI)	Rocky Mountain Institute Statement on the Coronavirus Situation	Green Stimulus and Recovery
Ryse Energy	Call to Action: Roadmap for the DRE sector to survive and flourish in the wake of the COVID-19 crisis	
Siemens Gamesa Renewable Energy	A notice about COVID-19 Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	
SkyPower	SkyPower's Efforts During the COVID-19 Pandemic	

SolarPower Europe	#EUGreenRecovery to restart Europe SOLARPOWER EUROPE COVID-19 UPDATES	Global Market Outlook 2020-2024
Syndicat des Energies Renouvelables (SER)		Les énergies renouvelables : un levier de la relance économique
Trina Solar	Trina Solar and COVID-19: Your safety is our top concern	
Vestas Wind Systems	Vestas' COVID-19 pandemic response and mitigation setup Post-COVID-19 recovery must prioritise sustainability Accelerating sustainable solutions, for both climate and economy Wind Power a cornerstone of the Global Economic Recovery: "Re-building Better" for the future	
WaterPower Canada	WaterPower Canada COVID-19 Response Measures Joint Statement by Hydropower and Generator Associations on Covid-19	
World Bioenergy Association (WBA)	Joint Statement on Renewables Working Together Building Back Better through a Green Recovery	COVID19 and Bioenergy: Impacts and future outlook
World Future Council (WFC)	THOUGHTS ON THE COVID-19 PANDEMIC Covid-19: The World Future Council's Call on Governments, Multilateral Organisations, Leaders and Policy-makers of the World to Take Action	Making Societies More Resilient! The Role of Renewables in COVID19 Recovery Packages

World Resources Institute (WRI)	STATEMENT: WRI Statement in Response to COVID-19 Building Back Better After Coronavirus (COVID-19)	
World Wind Energy Association (WWEA)	Joint Statement on Renewables Working Together Building Back Better through a Green Recovery	
WWF International	A crucial opportunity for change following the COVID-19 pandemic Reflecting on Ambition in the era of COVID-19	
Yellow Door Energy	Response to Covid-19
